Phone: 509-847-5021

If English is not your primary language, we will call you back with the help of a telephone interpreter in the language you are most comfortable with.

Who does this program serve?

The CDBG program improves the economic, social and physical environment of eligible, rural cities and counties to enhance the quality of life for low- and moderate-income residents. CDBG has disaster recovery funds through the U.S. Department of Housing and Urban Development (HUD). Its purpose is to fund projects that assist in long-term disaster recovery and mitigate the impact of future disasters.

Housing Trust Fund (HTF)

Contact us

HTFApp@Commerce.wa.gov

Who does this program serve?

The Housing Trust Fund provides funding to establish and maintain affordable housing. Properties financed by the program can house people earning less than 80% of the Area Median Income, but most of these properties house households with special needs or incomes below 30% of the Area Median Income. This includes people and families experiencing homelessness, people needing supportive housing, seniors, veterans, farmworkers, and people with developmental or other disabilities.

On Dec. 18, Gov. Ferguson directed funds to the HTF to support people impacted by flooding in Washington. Homeowners who have families with children aged five or younger, senior citizens and veterans will be prioritized when awarding grants. Ferguson plans to make this early action legislation heading into the upcoming session.

Manufactured/Mobile Home Relocation Assistance and Coordination Programs

Contact us

OMH@commerce.wa.gov

Phone: 800-964-0852

If English is not your primary language, we will call you back with the help of a telephone interpreter in the language you are most comfortable with.

Who does this program serve?

Manufactured/mobile home communities in Washington that are closing or converting to a use other than a manufactured/mobile home community may be eligible for assistance for relocation or demolition services. "Closure" includes communities permanently closed due to "health and safety concerns" (for example, flooding, landslides, etc.). Households must meet income guidelines (below 80% AMI) and must be owner-occupants of either a manufactured or mobile home at the time of the closure notice.

For households displaced as a result of "health and safety concerns," such as flooding, Commerce must receive documentation from a regulatory entity that demonstrates the health and safety reasons for the permanent closure of the manufactured/mobile home community or mobile home lot.
